Our caregivers are the heart of Westchester Family Care. Their most valued credentials are their compassion, professionalism, and desire to help others!

WFC caregivers have extensive training as Certified Home Health Aides. We conduct background checks, drug testing, and physical and medical evaluations. In addition, they receive continuing education on a regular basis.

Getting Started is Easy

When you sign up with WFC, our Registered Nurses provide an in-home assessment for a complete understanding of your home care needs. A care plan is created and continuously reviewed with you and your doctor to ensure we are meeting your needs and delivering the quality care you expect and deserve.
